Newsletter November 2019

Dear SWIBU Friends, Donators, Godmothers and Fathers

While we were spared reasonably from the typhoon Kammuri (Tisoy) here in Cebu, it has hit other Philippine Islands very heavy. In our thoughts and prays we are with these people which have lost the few they had and most of all to the ones which have to mourn the death of their loved ones. But here, too, the schools were closed and some landslides have cut off the needy ones in the mountains from the environment. Nevertheless, we are happy that the people here in Cebu have not hit harder, and we were able to resume our work shortly after it.

On the 14th of December we celebrate the SWIBU Christmas party. The preparations are in full force. The children and parents of the small village Kasunting in the mountains of Cebu have been selected to organize this celebration. We are already looking forward to the happy faces of these people, when Santa finally brings them also once a present, and brings light to these children, which happens thanks through your generous donations.

The whole SWIBU team and the children in desperate need are ready for memorable, enriching and uplifting moments. With great pleasure we let you be part of it with the next Newsletter.

The children in this village can hardly expect this day, which brings light, love and joy to their life.

We from SWIBU wish you, your family, your company and team, a beautiful Advent, and at the same time a very Merry Christmas. We would like to thank again for your monetary and material gifts. All this would not be possible without your support!

Christmas greetings (maayong pasko – in Cebuano) from Cebu

Your SWIBU-Team

Ellen P Ramas (President SWIBU-Cebu)
