Newsletter October 2019

Dear SWIBU Friends, Donators, Godmothers and Fathers

In Switzerland soon the first snowflakes will cover the green meadows white and will ring in the cozy advent season. The anticipation for Christmas is getting day by day larger. Here in Cebu the rainy season is coming to an end and our helpers are looking forward to visit the people in the mountains with dry feet.

The preparations for Christmas here in Cebu started already in the middle of October. Christmas Trees are decorated in the houses of the wealthy people. Also, the shopping centers are decorated with LED Lights and Trees, which are warming up the hearts and announce the celebration of joy and love.

Christmas and the pre-Christmas time look unfortunately for a lot of Children and Families completely different. No Christmas Tree, not even a little present, no food, just like usual: Fight for survival. That is why SWIBU has decided to send in the next few days thousands of Mails to prospective Donators, private and businesses with the below following text. We do everything that the poor families here in Cebu also can celebrate Christmas on a very small level and can enjoy some moments of happiness. That fore we urgently need your help and kindly ask you to forward this mail to your friends and relatives. Thank you very much.
